

LUMIDOR

EXOSOME & DERMAL BIO-STIMULATOR

CATEGORIZE
OF LUMIDOR

A background image featuring three women of diverse ethnicities (Black, Asian, and Hispanic/Latina) smiling and looking towards the right. They are positioned in a row, with the woman on the left slightly behind the other two. The overall tone is warm and positive, emphasizing skin health and beauty.

SET YOUR IDEAL TIME FOR YOUR SKIN

PROFESSIONALS'
CHOICE FOR
PROFESSIONALS

LUMIDOR

is a professional slow-aging solution skin booster program that combines high-concentration stem cell solution directly cultured by the exosome research team of ABio materials, a leading exosome industry, and high-concentration plant-based exosomes separated and purified using a patented, independently developed method that maximizes effective ingredients in the company's smart farm to rebuild the skin basement membrane with powerful activation and normalize the skin growth cycle.

GUARANTEED MISSION

ABio's relentless research passion to develop new biomaterials and maximize effective ingredients began with the sincerity of wanting customers to always be satisfied with the image of themselves reflected in the mirror today through special care.

ABio is a leading company in bio-cosmetic materials and has been manufacturing and supplying bio-materials and raw materials for leading domestic and international partners for many years. It acquired the exosome business of 'Prostemics', an exosome specialist, and spurred research on slow aging.

To overcome the limitations of existing extract functions and maximize the efficacy of exosomes, we have developed new varieties and cultivated real plant-based exosomes, and through up to 38 different plant-based exosomes, we are making efforts to benefit humanity by doing what we do best.

OUR ARTISANS & HERITAGE

"STILL A LONG WAY TO GO"

LUMIDOR the solution for slow aging, has never been far from your today, from the selection of materials to the cultivation method. The newly emerged drug delivery system called exosome is now playing a game changer in the medical and cosmetics industries.

We hope that LUMIDOR 's craftsmanship, which has deepened as much as the "interest in aging time" that started in the laboratory, will become a magical journey that will give you a moment to enjoy the beauty that your skin originally had a little more slowly.

Slow aging solution Skin Booster program LUMIDOR's great journey has already begun.

BY EXOSOME PROFESSIONALS

- **PATENTED TECHNOLOGY FOR PLANT-BASED EXOSOME** separation and purification
- Experience in developing new plant varieties for maximum efficacy
- **38 PLANT-BASED EXOSOMES** for various skin concerns

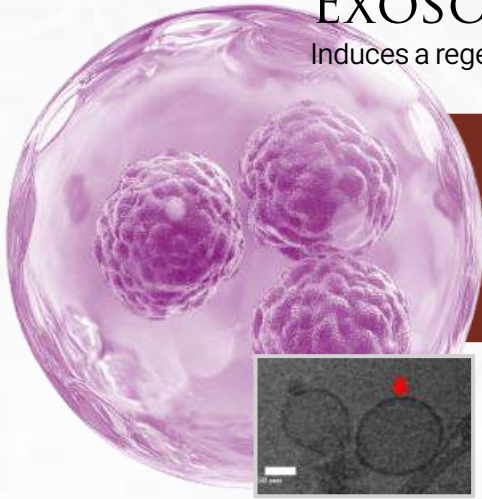

- **OWN SMART FARM**
- Possesses many exosome-related **PATENTS- 37 TECHNOLOGY PATENTS REGISTERED**

EXOSOME SIGNALING MECHANISM

Induces a regenerative and anti-inflammatory microenvironment

Stage 1
Intercellular transfer
of Exosomes

Stage 2
Intracellular signaling in
target cells

Stage 3
Expression of mRNA

Stage 4
Regulation
of biosynthesis

STAGE 1 INTERCELLULAR TRANSFER OF EXOSOMES

☑ **Various Proteins and miRNAs**
inside exosomes enter the cell.

☑ **Three pathways** of
cellular entry

- Membrane fusion
- Endocytosis
- Receptor binding

STAGE 2 INTRACELLULAR SIGNALING IN TARGET CELLS

☑ **Protein's Signaling**

☑ **miRNA's Signaling**

STAGE 3 EXPRESSION OF MRNA

☑ **Promote**
Collagen mRNA
skin barrier protein mRNA

☑ **Suppress**
inflammatory mRNA and
cytokine mRNA

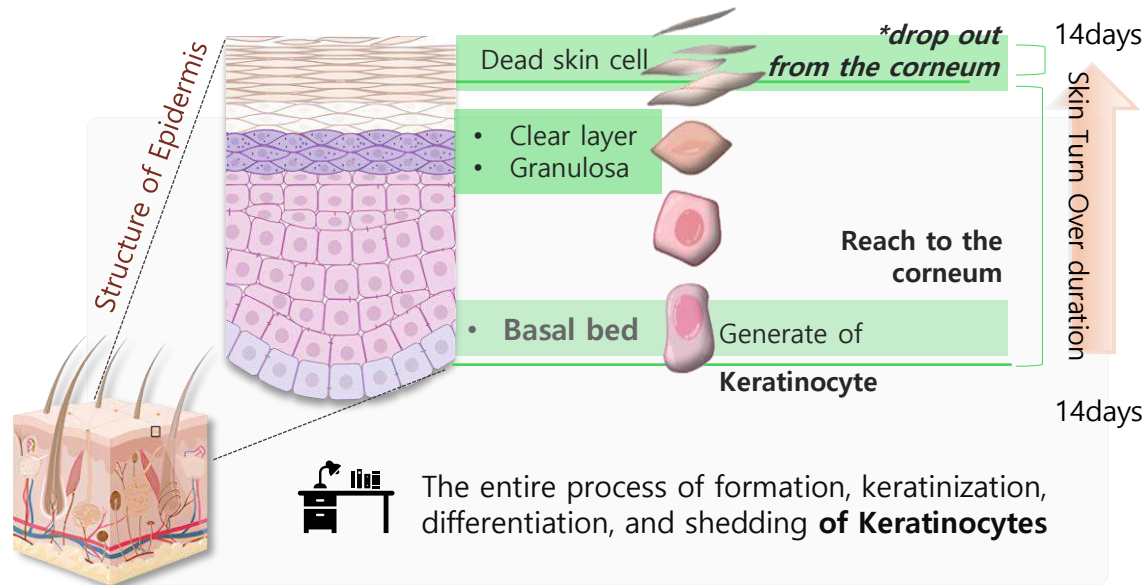

STAGE 4 REGULATION OF BIOSYNTHESIS

☑ **Produce**
Collagen, Elastin, and Other actives

☑ **Inhibit**
Inflammatory Cytokine

IMPORTANCE OF BMZ (BASEMENT MEMBRANE ZONE)

Topical skin booster care for basement membrane reconstruction and skin epidermis strengthening through normalization of skin turnover cycle

THE IMPORTANCE OF SKIN TURN OVER DURATION

Keratinocytes generated in the basal layer reach the stratum corneum, die, fall off completely, and are replaced by new cells, providing primary protection from the external environment.

REPLACE
DAMAGED
CELL

GENERATE
SKIN BARRIER
STRUCTURE

EXCRETE
MELANIN
PIGMENT

BLOCK
THE ACNE-CAUSING
ENVIRONMENT

NORMALIZATION OF SKIN REGENERATION CYCLE WITH KERATINOCYTE DEATH

Normal skin turnover cycle is **28 days**, gradually delayed to 45-90 days as skin ages
Especially, accelerates from mid of 30s

THE TURNOVER CYCLE IS PROLONGED,

Keratinocytes that form the skin barrier are not removed and block pores, causing skin troubles, cosmetics are left on the outside, weakening the epidermis, which is the first line of defense, and affecting the dermis, elasticity, pores, etc., repeatedly causing adverse effects.

THE TURNOVER CYCLE IS SHORTENED,

it means that new cells cannot reach the keratin layer and premature keratin shedding occurs, and the skin accelerates division to repair it, damaging the skin barrier and causing rapid drying, repeating a vicious cycle.

ELASTICITY

FROM BASIC SKIN CARE TO CONCENTRATION CARE AND AFTERCARE

LUMIDOR maximizes the solution ingredients for each skin concern, focusing on high-performance products used in topical Skin Boosters that combine highly concentrated plant-derived exosomes isolated and purified through a patented exclusive method with cultured human-derived stem cell cultures. Through the hands of experts, the Skin Booster targets and reconstructs the basement membrane, normalizing the skin turnover cycle, which is the root of the problem, and helps to realize slow aging.

STEM CELL & EXOSOME SKIN CARE

STEM CELL & EXOSOMES DERIVED HUMAN

BIOLOGICAL PRECISION REGENERATIVE POWER

HUMAN DERMAL FIBROBLAST (HDFs) –CELL PROLIFERATION COMPARISON

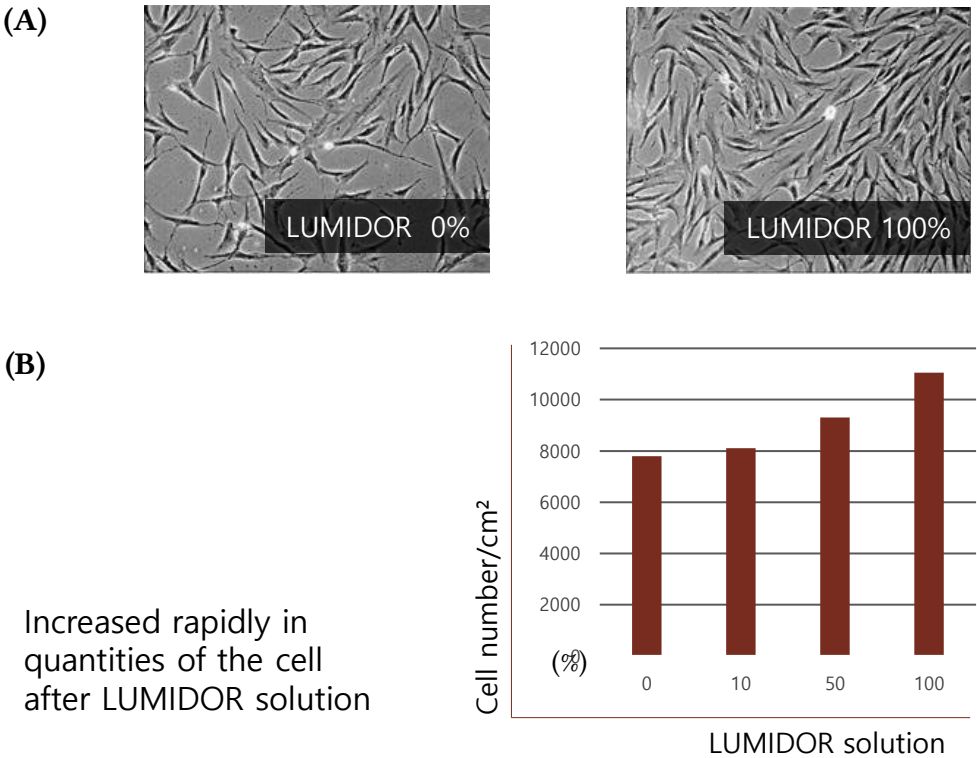

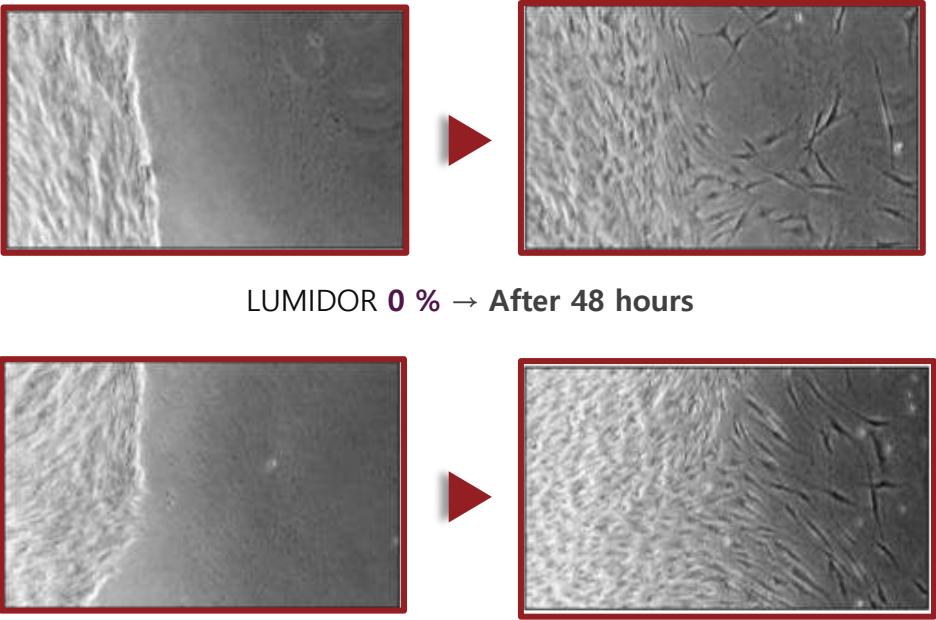

Fig. 3 Effects of LUMIDOR on proliferation of HDFs. HDFs were treated with 0, 10, 50 and 100% of LUMIDOR for 72h. Numbers of HDFs exposed to LUMIDOR were measured by CCK assay (B). Results are shown as mean $\pm$ S.D. of quadruplicates within a representative of three independent experiments. * $P < 0.05$; ** $P < 0.01$.

PROVEN EFFECTS BY THESIS REPORT

Migration of Human Dermal Fibroblast

- LUMIDOR enhanced migration of HDFs by 1.97 fold over control level ($P < 0.01$) after 48hrs incubation

Fig. 6 Effects of LUMIDOR on HDF migration. Monolayers of confluent HDFs were wounded with plastic micropipette tips. HDFs were photographed 48 hrs after wounding by phase-contrast microscopy.

INCREASING OF HUMAN DERMAL FIBROBLAST (HDFs) COLLAGEN TYPE I

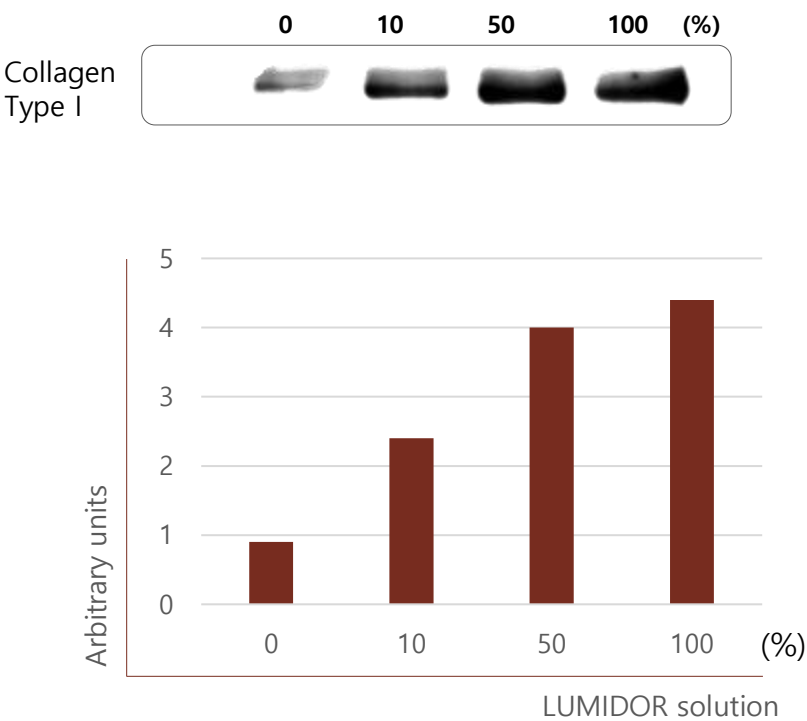

Fig. 4 Effects of LUMIDOR on the secretion of type I collagen by HDFs. Secretion of type I collagen was determined by Western blot analysis.

Journal of Dermatological Science (2007) 48, 15–24

PROVEN EFFECTS BY THESIS REPORT

Increased collagen gene expression and decreased collagen-degrading enzyme (MMP1) gene expression in human dermal fibroblasts

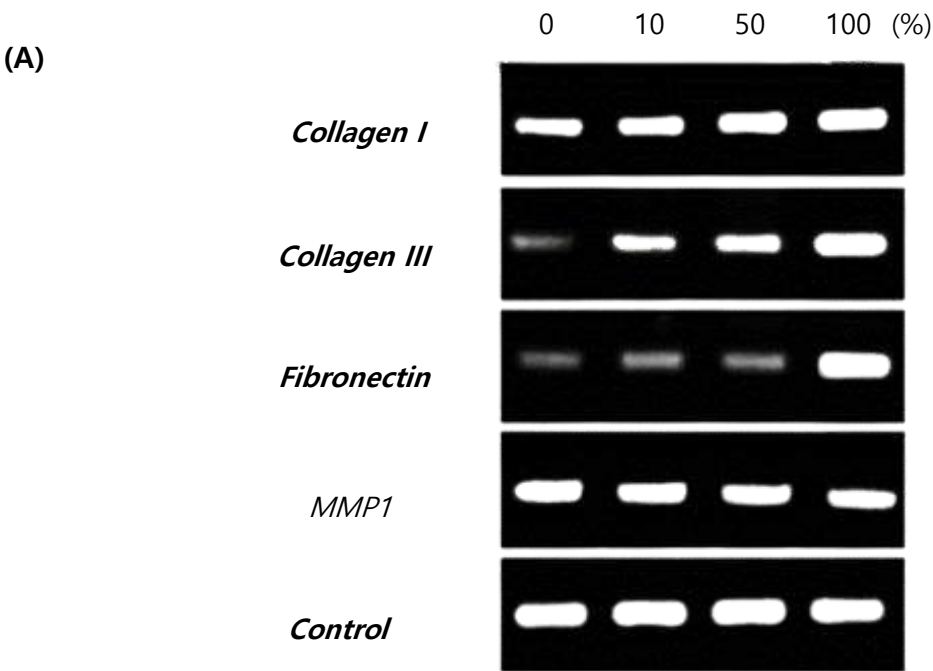

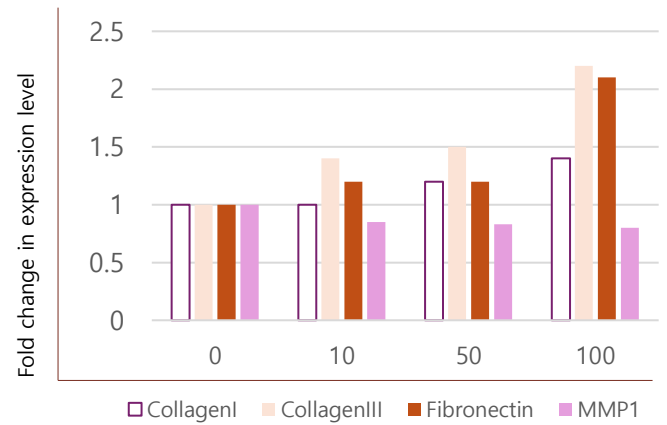

Fig. 5 Effects of LUMIDOR on mRNA expressions of ECM proteins and MMP-1 in HDFs.
mRNA expression of types I and III collagen, fibronectin and MMP-1 were detected by RT-PCR (A) and estimated compared with control (B). Representative data are shown as mean $\pm$ S.D. of triplicates within a representative of four independent experiments. (*P < 0.05; **P < 0.01.)

(B)

SLOW-AGING EFFECT DUE TO INCREASED SECRETION OF SOD

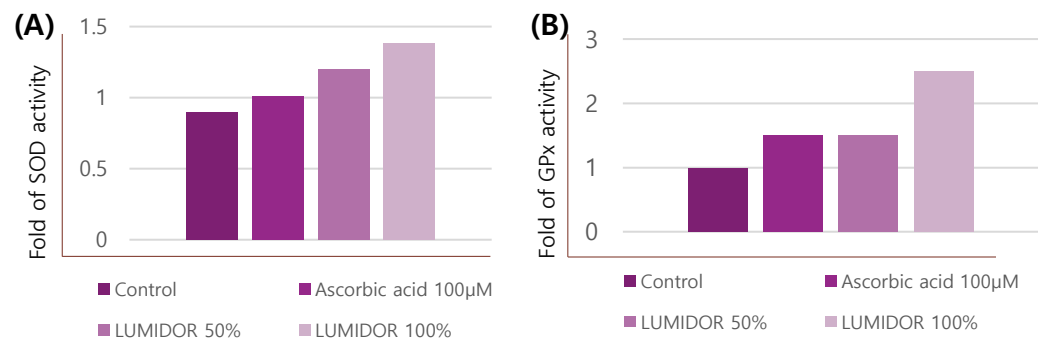

Fig. 5 Effect of ascorbic acid and LUMIDOR on the activities of SOD (A) and GPx (B) in HDFs from tbOOH-induced oxidative injury (B) (*p < 0.05, **p < 0.01).

Journal of Dermatological Science (2007) 48, 15–24

PROVEN EFFECTS BY THESIS REPORT

Skin Barrier & Wrinkles Improvement

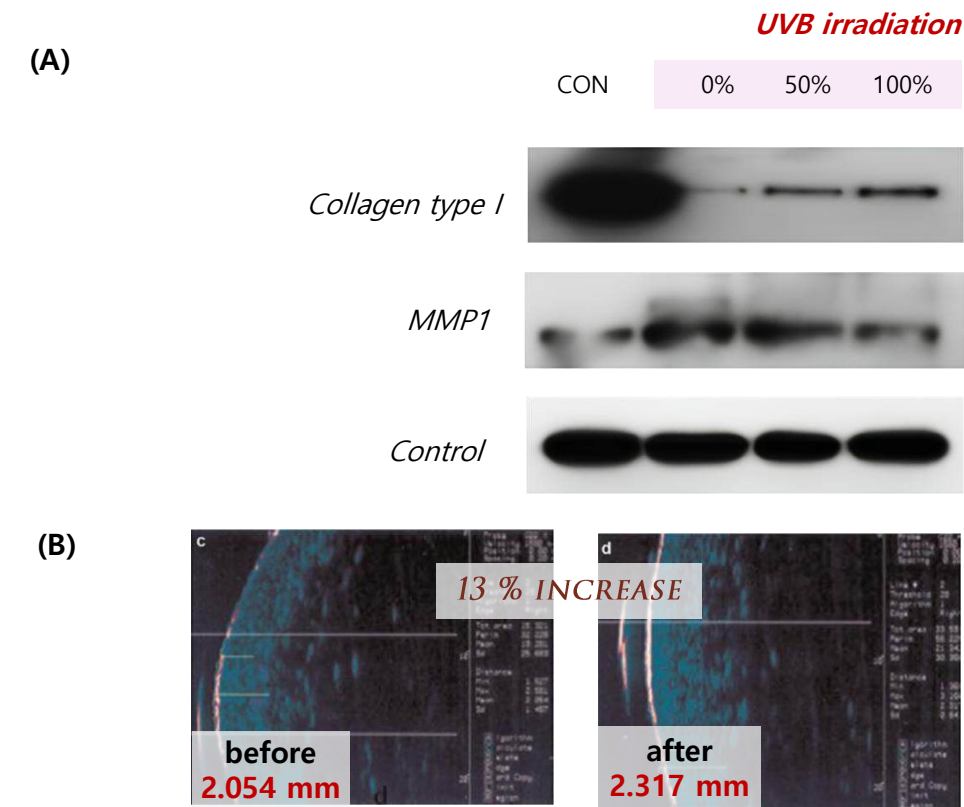

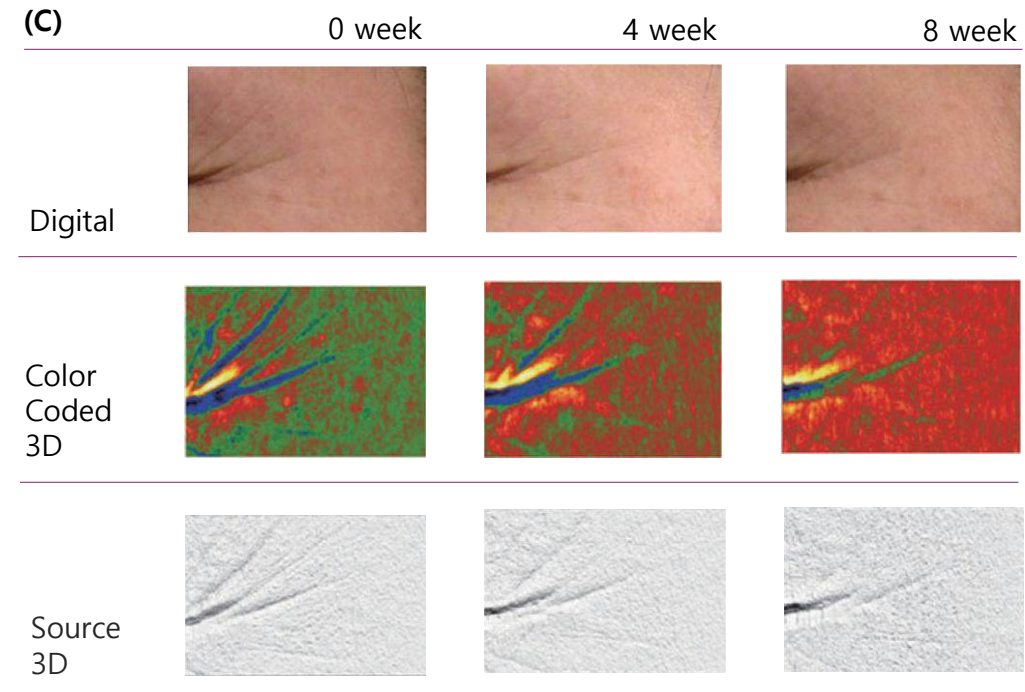

Fig. 8 Effects of ADSC-CM on the expression of collagen type I and MMP1. UVB significantly reduced the protein expression of collagen type I, which was reversed by LUMIDOR. However, expression of MMP1 was increased by UVB and was reduced by LUMIDOR pretreatment.

CREAM

- TONER (200 ml)

Gentle toner infused with stem cell extract to soothe skin and boost ingredient delivery.

Core Function

- ➔ Prepares and calms skin with stem cell extract
- ➔ Skin texture and boosts skin regeneration
- ➔ Enhances absorption of active ingredients

Key ingredients

Human Adipose-derived Stem Cell Culture Fluid (9,800ppm)

Toner 100 mL

- SX SOLUTION AMPOULE

Human Conditioned Media 100,000 ppm

& Various Peptides, Growth factors & HA

For sensitive skin calming & Regeneration

1~2 Times a Week with Classic Skin Care line

SX SOLUTION AMPOULE
6 mL x 12 vials & 2 Caps/ 1 box

- SERUM (50 ml)

A stress-relieving serum powered by Exo-Cica®, TECA-3 Complex, and EXO-LACTO for intensive calming and skin barrier repair. Balance and soothe inflamed skin with clinically inspired actives.

Core Function

- ➔ Intensive regeneration with 147,000ppm stem cell culture
- ➔ Anti-aging care for wrinkles and skin elasticity with high density texture
- ➔ Gentle texture suitable for sensitive skin

Key ingredients

Human Adipose-derived Stem Cell Culture Fluid (147,000ppm), Peptides

Serum / 50 mL

From Vitality to Resilience

- CREAM (50 ML)

A daily calming cream enriched with Exo-Cica® and Exo-Heartleaf for intensive hydration and barrier support. Formulated to relieve urban-stressed and reactive skin.

Core Function

- ➔ Skin rebuilding cream with 100,000ppm stem cell culture
- ➔ Peptide + collagen complex for firming and lifting
- ➔ Long-lasting moisture barrier and skin balance restoration

Key ingredients

Human Adipose-derived Stem Cell Culture Fluid (100,000ppm), Collagen, Peptides

Cream / 50 mL

WHO NEEDS SX ?

- ☑ POST-PROCEDURE SKIN
- ☑ AGING & DAMAGED SKIN
- ☑ INTENSIVE REGENERATION

EXOLUTION CREAM

NEXT-LEVEL RESILIENCE, BACKED BY SCIENCE
Stem Cell 100,000ppm – A new era of intelligent elasticity care.

Key ingredients

- Human Adipose-derived Stem Cell Culture Fluid (100,000ppm)
- Peptides Complex
- Retinol+ Collagen

Core Function

- ➔ **Lifting & Firming Action:**
Enhances elasticity and supports sagging contours with targeted care.
- ➔ **High-Performance Anti-Aging:**
Addresses wrinkles, loss of volume, and rough texture in a single step.
- ➔ **Rapid Absorption + Skin Defense:**
Delivers intensive actives while reinforcing the skin barrier.

Exolution Cream / 100 mL

WHO NEEDS EXOLUTION CREAM?

SKIN CONCERN KEYWORD	WHO IT'S FOR
☑ LOSS OF FIRMNESS	For those noticing sagging skin, especially around the jawline or cheek area
☑ POST-AESTHETIC RECOVERY	For skin that needs intensive care after lifting, laser, or anti-aging treatments
☑ MATURE & VOLUME-DEPLETED	For skin showing visible signs of aging—wrinkles, dullness, and loss of density

Core Function

- ➡ Long-lasting Hydration:
Deep moisturizing cream enriched with barrier-supportive actives to prevent TEWL(Transepidermal Water Loss) and dryness.
- ➡ Soothing & Redness Care:
Exo-Cica® - and Ectoin calm sensitive, reactive skin and reduce redness over time.
- ➡ Daily Skin Defense:
Reinforces the skin barrier against urban stress, external irritants, and overtreated skin.

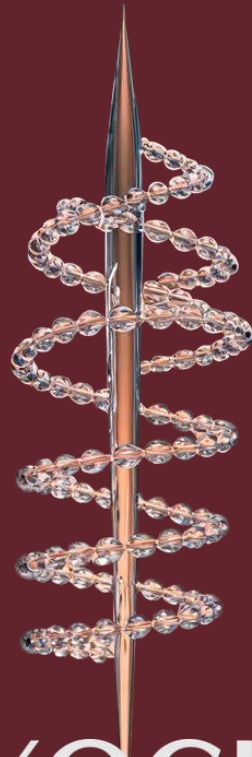

Soothing booster Cream 100 mL

WHO NEEDS SX SOOTHING BOOSTER CREAM ?

SKIN CONCERN KEYWORD	WHO IT'S FOR
☒ SENSITIVE & REACTIVE	For those experiencing redness, tingling, or burning due to environmental stress
☒ POST-PROCEDURE COMFORT	For skin that needs calming after exfoliation, RF, or laser treatments
☒ DEHYDRATED & WEAKENED	For barrier-damaged skin with chronic dryness or tightness

EXOSOME & WHITE SPICULE

EXOCLE

SKIN ACTIVATION PROGRAM

An innovative program that accelerates the normalization of the skin's growth cycle and maximizes its effects through the combination of Exosome and Spicule.

By combining high-purity White Spicules, with Exosomes derived from various sources extracted using a patented method, it offers a solution that targets skin issues more quickly and precisely.

Through the synergistic effect of Nano-particles exceptional regenerative ability and Spicule 's function to enhance skin speed to get back, you can confidently face skin issues and achieve natural, beautiful skin with *slow aging*.

Powered By

Exosome × High Purity White Spicules

Exosomes

Helps with intercellular communication, targets skin problems, delivers growth factors

Delivers effective ingredients to the dermis in a size smaller than pores

Special features of skin growth factors and their origins. Excellent for skin treatment and regeneration

White Spicules

Micro-stimulation >> Promotes regeneration (Utilizes the skin's natural will to regenerate)

Promotes absorption of more growth factors into the skin

Binds with exosomes to move faster to deeper parts of the skin >> Promotes skin regeneration

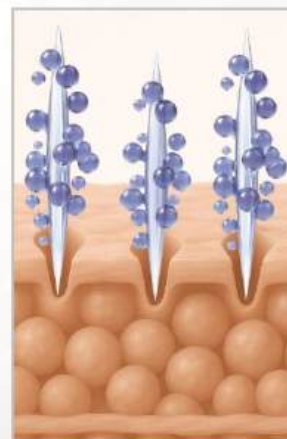

Normalization of skin growth cycle

Wound healing and skin regeneration, inflammation relief, Skin barrier

Blood circulation, skin density, inflammation relief

Normalization of skin growth cycle

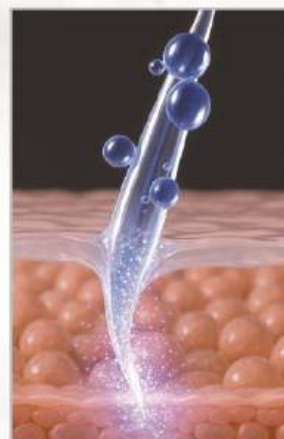

EXOCLE

POINT 01

Quick

The pores temporarily open through mild simulation with high purity white spicules.

POINT 02

Precise

Exosomes, smaller than pores, penetrate deep into the skin, targeting problematic areas precisely and delivering various growth factors.

POINT 03

Long Lasting

By penetrating deep into the skin and regenerating various growth factors, it naturally restores the skin's inherent beauty without being artificial, achieving continuous slow aging.

PX REFINE SHOT SKIN BOOSTER 2,000 & 30,000

PX REFINE
SHOT SKIN BOOSTER 2000

SHOT SKIN BOOSTER 3000
3 ml

BOOST YOUR SKIN, GRADUALLY. SCIENTIFICALLY.

Key ingredients

- Hydrolyzed Sponge Spicule (2,000ppm / 30,000ppm)
- Exo-Cica® (Centella Asiatica Exosome)
- Exo-Heartleaf

Core Function

- ➔ Skin Renewal with Micro-Channeling:
Microneedle-like spicules penetrate the stratum corneum to stimulate regeneration and improve absorption.
- ➔ Calming + Balancing Exosome Complex:
Exo-Cica® and Exo-Heartleaf help soothe, restore balance, and strengthen the skin barrier.
- ➔ Microbiome-Friendly Skin Reset:
Formulated to support microbiome care and fortify skin against external irritation and textural imbalance.

Caution for Usage!

LOWER PPM- Milder

HIGHER- STRONGER

Higher ppm means stronger penetration and stimulation.
Start with lower, then gradually move to **higher** based on skin tolerance.
For high-strength formulas, **use less frequently at first (e.g., once a week)**.

SX SOLUTION SHAMPOO & TREATMENT

- Functional cosmetic for hair loss relief (KFDA certified)

500 mL
SX REJUV EXO SHAMPOO

SX REJUV EXO TREATMENT
500 mL

Dual-step scalp care system powered by 10% human adipose stem cell culture extract, caffeine, and botanical exosomes. This high-performance shampoo and treatment duo purifies, soothes, and revitalizes the scalp while supporting hair density and long-term scalp balance.

Clinically formulated to relieve hair loss symptoms and restore a healthy scalp environment.

SX REJUV EXO SHAMPOO

SX REJUV EXO TREATMENT

Key ingredients

- Human adipose stem cell culture extract (102,900 ppm)
 - Caffeine 1 %
 - Menthol & Salicylic acid
- Human adipose stem cell culture extract (98,000 ppm)
 - Caffeine 1 %
 - Panthenol & Lactic acid

Core Function

- Helps relieve hair loss symptoms
- Recharges the scalp with stem cell extract and caffeine
- Soothes irritation and restores balance
- Promotes stronger, healthier-looking hair

Recommended Use Order

- Shampoo: Massage into wet scalp and rinse thoroughly
- Treatment: Apply to hair and scalp, leave for 2-3 minutes, then rinse

Usage Precautions

- For external use only.
- Avoid contact with eyes. If contact occurs, rinse thoroughly with water.
- Discontinue use if signs of irritation (itching, redness) appear and consult a specialist.
- Do not use on broken, inflamed, or diseased scalp areas.
- Keep out of reach of children. Store in a cool, dry place away from sunlight.
