

FAQ Lumidor Hair Care Line

What is Lumidor Hair Care?

Lumidor Hair Care is an advanced scalp and hair care line formulated with Human Stem Cell Conditioned Media and bioactive ingredients. It focuses on improving the scalp environment, which is the biological foundation for healthy hair growth.

What makes Lumidor Hair Care different?

Lumidor is powered by ABio's proprietary Cultivation™ & ExoTraction® technology, delivering high-purity bio-signals that support scalp balance, follicle vitality, and overall hair health. Rather than coating the hair, Lumidor works at the scalp level to create optimal conditions for hair to grow naturally.

How does it work on the scalp?

Lumidor helps to:

- Remove excess sebum and impurities
- Calm scalp heat and irritation
- Support micro-circulation and nutrient delivery
- Reactivate cellular communication around hair follicles
- A healthy scalp environment allows hair follicles to function more efficiently.

Is Lumidor suitable for sensitive scalps?

Yes. Lumidor Hair Care is designed to be gentle and scalp-friendly, free from harsh stimulants. It is suitable for sensitive, stressed, or imbalanced scalps when used as directed.

When can I expect to see results?

Scalp comfort and balance may be felt early with regular use. Visible improvements in hair condition typically appear with consistent daily care over several weeks, as the scalp environment stabilizes.

Can Lumidor be used with professional treatments?

Yes. Lumidor Hair Care is ideal for pre- and post-professional scalp treatments, helping maintain results and support ongoing scalp health at home.

@lumidor_usa

Hair Concerns Begin at the Scalp

Blocked Follicles & Excess Sebum

Lumidor purifies the scalp, removing buildup and restoring clean follicle pathways.

Scalp Heat & Irritation

Lumidor calms and soothes, helping reduce scalp stress and imbalance.

Reduced Circulation

Lumidor supports micro-circulation, improving oxygen and nutrient delivery to the scalp.

Slowed Cellular Communication

Lumidor reactivates bio-signaling, helping scalp cells communicate more effectively.

Weakened Hair Foundation

Lumidor rebuilds the scalp environment, creating optimal conditions for healthy-looking hair.

How to Use

Step 1. Cleanse

Apply Lumidor Shampoo to wet hair and scalp. Gently massage to remove excess sebum and impurities, then rinse thoroughly.

Step 2. Treat

Apply Lumidor Tonic directly to the scalp. Gently massage until absorbed. Do not rinse.

Step 3. Care

For advanced scalp management, consult an ABio Materials—authorized professional.

Step 4. ABio Materials Professional Care

Lumidor Hair Care may be combined with ABio Materials exosome-based professional treatments to help optimize the scalp environment and enhance overall results.

1

SX SOLUTION SHAMPOO

Scalp-Optimizing Cleanser for Hair Loss Prevention

+ Key Benefits

➔ Activates hair follicles to help prevent hair loss

➔ Maintains scalp balance and keeps pores clean

➔ Creates an optimal environment for healthy hair growth

LUMIDOR

SX SOLUTION

SHAMPOO

500ml e 16.9 fl. oz.

Human Stem Cell Conditioned Media (102,900 ppm)

2

SX SOLUTION TREATMENT

Intensive Strengthening Care for Thinning, Weakened Hair

+ Key Benefits

➔ Strengthens hair protein structure and follicle anchoring

➔ Adds resilience to fine and weakened hair

➔ Supports recovery after coloring or perm treatments

➔ Smooths cuticle and forms a protective coating

LUMIDOR

SX SOLUTION

TREATMENT

500ml e 16.9 fl. oz.

Human Stem Cell Conditioned Media (98,000 ppm)

3

SX EXO HAIR TONIC

Precision Scalp Tonic for Regeneration and Density

+ Key Benefits

➔ Enhances hair root regeneration and helps reduce hair loss

➔ Instantly relieves scalp heat and stress

➔ Balances scalp pH and controls excess sebum

LUMIDOR

SX

HAIR TONIC

Net 3.28 fl. oz. (100ml)

Human Stem Cell Conditioned Media (303,800 ppm)

Formula Highlights

- ➔ 10.3% human stem cell conditioned media

➔ 1% caffeine

➔ Menthol for cooling and scalp refresh

➔ Salicylic acid to remove excess sebum and buildup

Advanced Care Formula

- ➔ 9.8% human stem cell conditioned media

➔ 1% caffeine

➔ Designed for professional-level hair loss care and intensive repair.

Dual-Nutrient Complex

What Makes It Different

- ➔ 30.4% human stem cell conditioned media

➔ Targeted delivery directly to the scalp (not a spray)

High Concentration Formula

- ➔ Gently stimulates scalp

➔ Enhances absorption without irritation

Why It Works

Scalp Environment Optimization

Human Adipose-Derived Stem Cell Conditioned Media (ADSC-CM)

Rich in growth factors that support scalp regeneration, follicle health, and hair density

Calms Inflamed Scalp

Affein (Asparagus + Caffeine Complex)

Helps energize follicles while calming scalp inflammation and irritation

Targeted Botanical Support

Hair Growth Promotion

Polygonum Multiflorum Root Vesicles

Traditionally used to nourish hair roots, support growth, and improve scalp condition

Ideal For

- ➔ Thinning or weakened hair

➔ Post-color or perm-damaged hair

➔ Hair prone to breakage and loss

EXO-CICA Technology

Scalp Refreshment

(Centella Asiatica Leaf Vesicles)

Soothes inflammation, strengthens scalp barrier, and supports follicle activation — even for sensitive or post-treatment scalps

Precision Application

- ➔ Designed with a soft silicone brush tip

➔ Delivers active ingredients directly to the scalp

➔ Enhances absorption without irritation
